

## THE ROYAL SANDS BOAT SCHEDULE (GREEN SEASON)

The Royal Sands Koh Rong is located on the island of Koh Rong in the Gulf of Thailand, 25 kilometres (approximately 60 minutes by boat) off the coast of Sihanoukville in southern Cambodia. It is the country's second largest island. Due to the monsoon period (May-October) has strong wind from the West of Koh Rong, Gulf of Thailand, sea can be fairly rough, we can't barely dock our boat at our main Jetty in front of our resort. Therefore, the option to embark and disembark safely our Royal Sands boat will go to East of Koh Rong which is protected from monsoon winds (by mountain of Rong) and convenience for guests on boat. From the new point, East side, or locally called Military Port, we will arrange the short transfer by car or truck from there to The Resort which will take about 15 minutes by concrete road (along the Rong mountain).
